

CRITICAL THINKING BY DESIGN.

SD38 is committed to addressing “...unconscious bias and privilege, systemic discrimination and marginalization based on factors such as ability, colour, cultural identity, gender, gender identity, Indigeneity, political beliefs, race, religious beliefs, sexual orientation and socio-economic status.” (Adapted from Strategic Plan 2020-2025)

In our journey towards Leading for Equity, K-12 Educators are invited to “unlearn” our unconscious biases using design to provoke critical thinking.

unlearn. | Critical Thinking by Design

This session is designed to challenge participants to think critically about bias, stereotypes, prejudice and discrimination. Participants will be guided through activities designed to increase awareness of everyone and highlight the bias we all have and to better understand how we can use this awareness to create a safe, caring and inclusive environment promoting dignity and respect for all.
